Consona N6

Diagnostic Ultrasound System

Clear Imaging Simplified

The Consona N6 Ultrasound System is designed to meet the diverse needs of shared-service facilities and beyond. Its compact design and mobility make it ideal for a wide range of imaging scenarios, ensuring ease-of-use and efficiency in office settings. Boosting capabilities for general imaging, cardiovascular, and women's health with an optional 3D/4D configuration – the Consona N6 is a cost-effective, console-based addition to the Mindray portfolio. It is powered by Mindray's revolutionary ZONE Sonography® Technology⁺ (ZST⁺), the industry's first virtual beamforming architecture, creating a perfectly-focused image with every pixel and frame.

Innovative Ergonomics

The Consona N6 embodies Mindray's vision of better healthcare for all through significant ergonomic enhancements. The system comes equipped with a user-friendly, gesture-powered touchscreen that can be tailored to fit specific requirements and a fully-adjustable floating control panel. These features ensure a smooth and efficient workflow, enabling intuitive and effortless operation.
